# Management Views

Mr. Pratik Pota Managing Director and CEO

"Faced with an ongoing soft demand environment, we continued to move ahead on our strategic priorities in Q4 FY23 and on improving the financial health of the business. We launched a new advertising campaign in Q4 targeted at non-users of the category, and we also introduced several key innovations in the market.

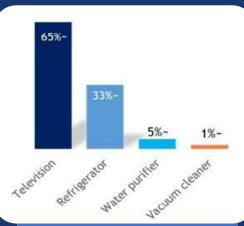

Execution of specific transformation initiatives helped improve our EBITDA margin to 9.3%, up by 300bps YoY and by 61bps sequentially. This combined with a 72% YoY reduction in our net debt will allow us the headroom to invest for growth. Looking ahead to the future, we are confident of driving sustained performance on the back of differentiated innovations, an elevated customer experience & a more efficient business model."
